

When 'PRIMO CHERRY' is compared to the check variety 'BLK03', 'PRIMO CHERRY' is wider than 'BLK03' in plant width. 'PRIMO CHERRY' shows higher plant vigor than 'BLK03'. In general, 'PRIMO CHERRY' has longer and wider leaves than 'BLK03' in terms of whole leaf length and width. Also, 'PRIMO CHERRY' has longer and wider leaflets than 'BLK03' when comparing the middle largest leaflet length and width. Additionally, 'PRIMO CHERRY' has more teeth numbers in middle leaflet than 'BLK03'. 'PRIMO CHERRY' has almost twice longer petiole than 'BLK03' at maturity, while its stipule length is slightly shorter. Regarding stem diameter at base, 'PRIMO CHERRY' is longer than 'BLK03'. When comparing the compound cyme diameter, 'PRIMO CHERRY' is longer than 'BLK03'. With respect to aroma, 'PRIMO CHERRY' smells like cherry, while 'BLK03' has a generally spicy smell.

When 'PRIMO CHERRY' is compared to the known *cannabis* plant named 'ECUADORIAN SATIVA' (U.S. Pat. No. 27,475), there are several distinctive characteristics. For example, overall form of 'PRIMO CHERRY' plant is wider

than the 'ECUADORIAN SATIVA' plant across at the widest point. 'PRIMO CHERRY' plant has a longer middle leaflet (without petiole) and whole leaf (with petiole) length than the 'ECUADORIAN SATIVA' plant. Additionally, 'PRIMO CHERRY' plant has a longer petiole at maturity than the 'ECUADORIAN SATIVA' plant. Also, 'PRIMO CHERRY' plant has a wider middle leaflet and whole leaf width than the 'ECUADORIAN SATIVA' plant. Regarding stem diameter at base, 'PRIMO CHERRY' is longer than 'ECUADORIAN SATIVA'. While the aroma of 'ECUADORIAN SATIVA' is strongly mephitic with hints of limonene, 'PRIMO CHERRY' has a cherry smell. When comparing total THC content between 'PRIMO CHERRY' and 'ECUADORIAN SATIVA', the total THC content of 'PRIMO CHERRY' is between 12.38-15.24%, while 'ECUADORIAN SATIVA' accumulates 12.45% total THC.

The invention claimed is:

1. A new and distinct cultivar of *Cannabis* plant named 'PRIMO CHERRY' substantially as shown and described herein.
